THE RED ROCK DIFFERENCE

We all deserve to be surrounded by love and inspiration. When you choose Red Rock, you are choosing tile that is made with purpose by hands that care. We are not laborers. We are a collection of artists that create an enduring product that reflects our artistry and skilled craftsmanship. We are proud to be a part of a thriving creative community and hope to help you build a space that reflects this vision.

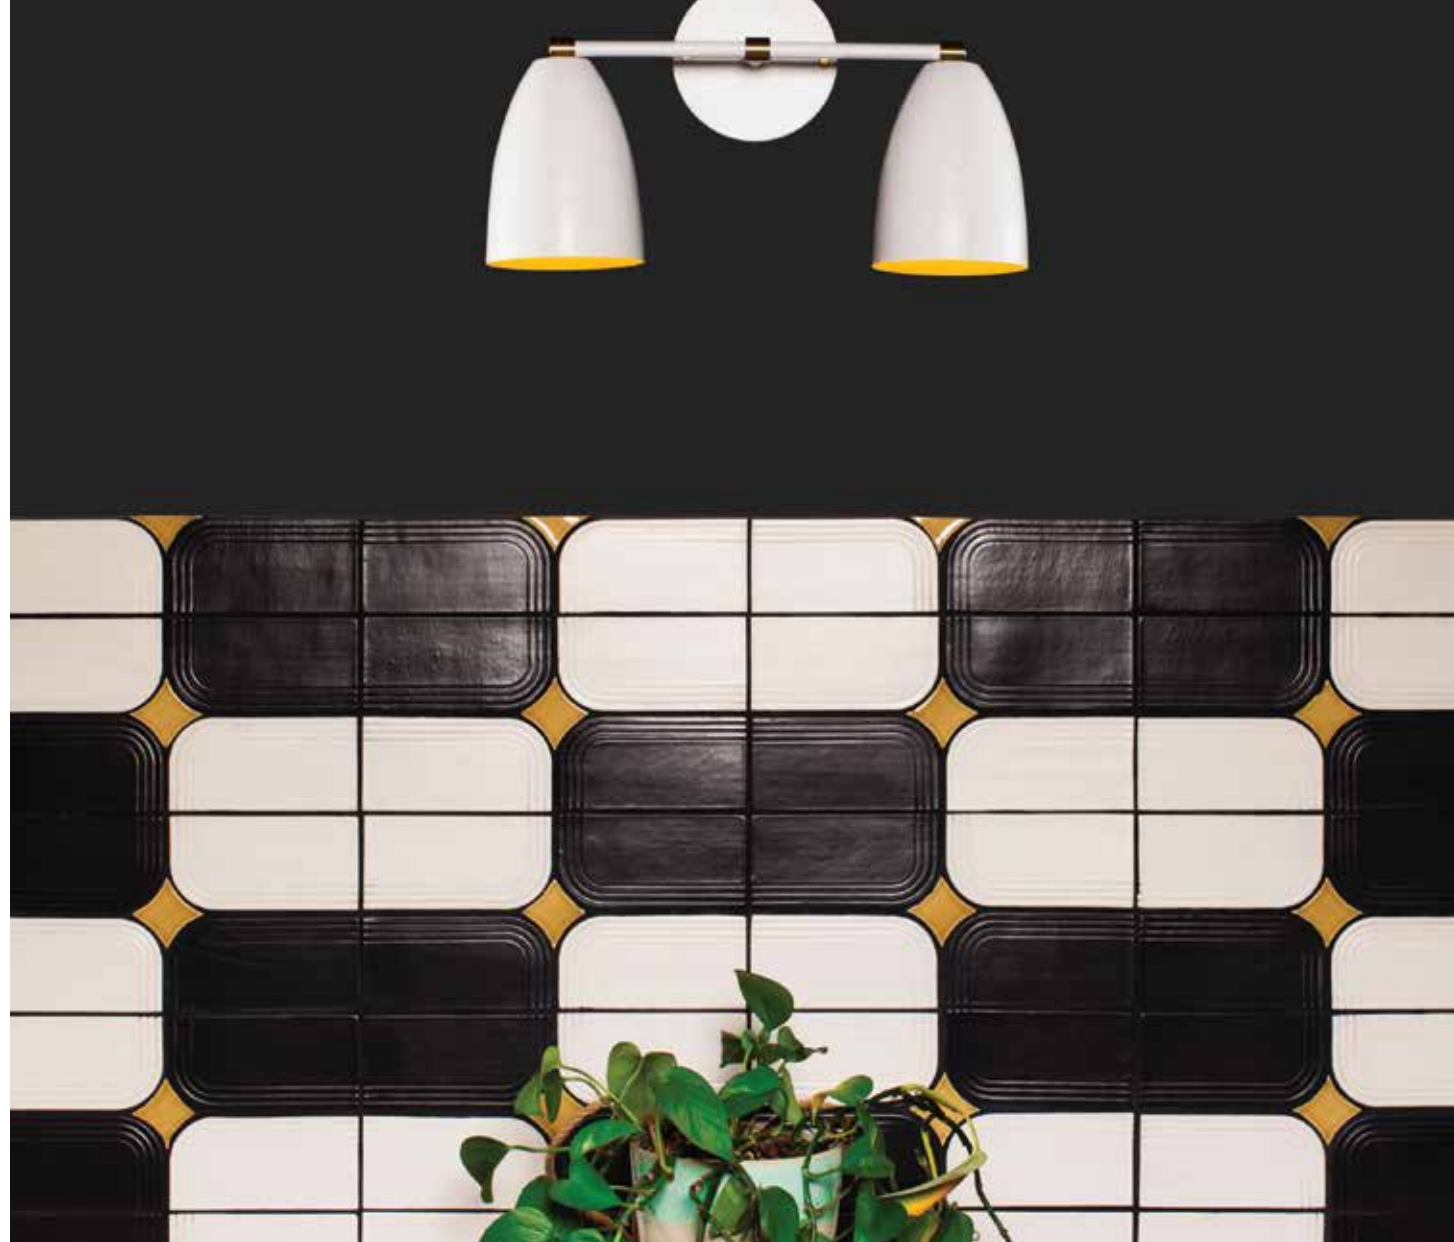

Love your surroundings and come home to Red Rock!

RED ROCK

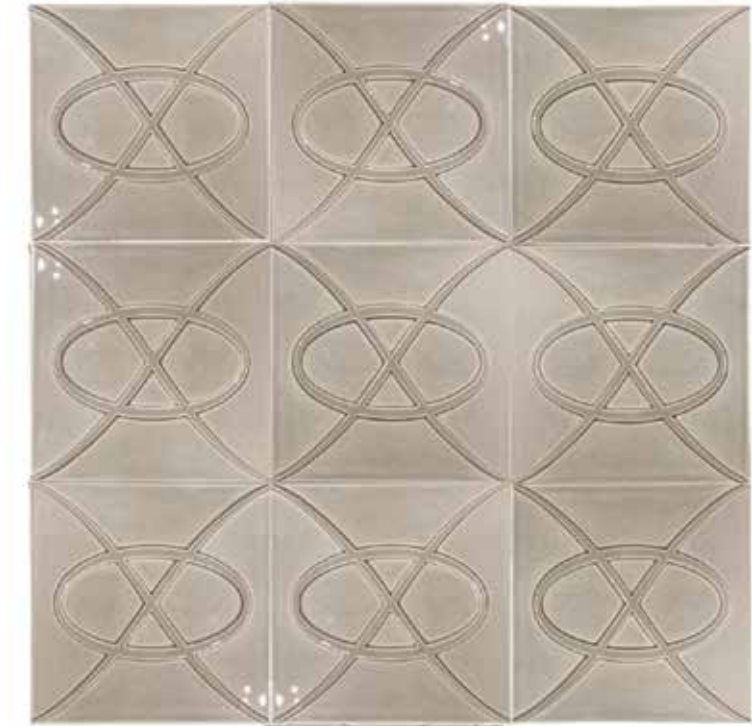

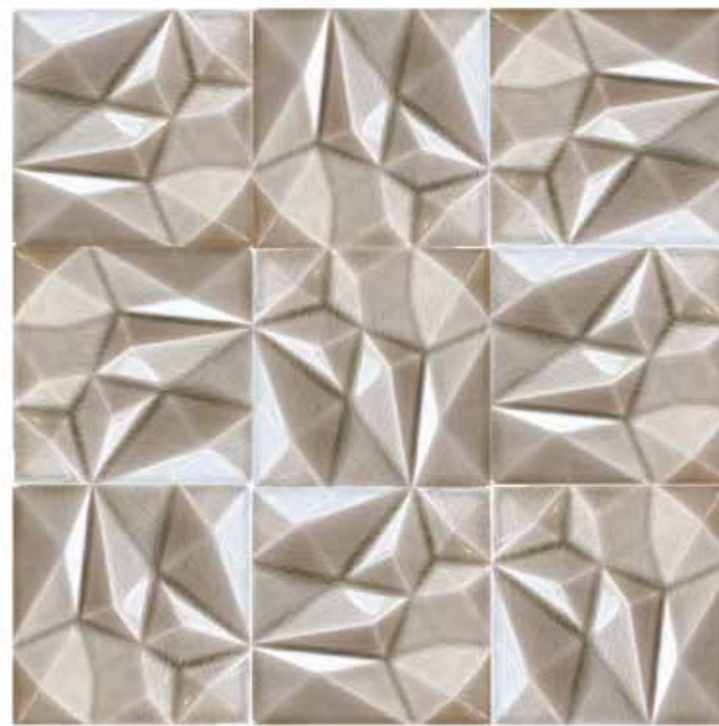

urban ARCHAEOLGY

In collaboration with Judith Stockman of Urban Archaeology, we present four patterned field tiles that create wall paper like texture in modern, yet classic, motifs.

Pair with her Plaza moldings that replicate historic profiles from New Yorks rich tile history.

Judith Stockman, Urban Archaeology's Co-Owner, designed this elegant collection of original tile. The Urban Archaeology Wallpaper Collection is a series of modern, hand-carved tiles offered in four decorative patterns - Origami, Eclipse, XO, and Thistle. When put together, the symmetry of each design, creates a continuous pattern, forming a decorative 'wallpaper' effect. These glazed ceramic tiles measure 6"x6" and are available in a large range of colors and finishes. The Origami Tile previously won Interior Design Magazine's Best of Year Product Award.

SMALL BUT MIGHTY

One of the beauties and conveniences of being a smaller tile company is that we're flexible and friendly!

Need custom molding or design? We've got you covered. We're able to produce 100% custom designs and colors at reasonable prices. Because we don't require large minimums like most tile companies, we're able to put 100% custom design and glazes within reach of homeowners, businesses, interior designers and architects alike!

HANDMADE FIELD

We have a plethora of field sizes and shapes! Hexagons, beveled edges, tear drop and framed are just a few of our favorites.

Glazed edges can be ordered on all of our tile for an additional charge. Single Bullnose and Double Bullnose are also available in most field tile shapes.

NEED A CUSTOM SHAPE?
WE CAN CREATE IT!

CLEAN LINES

Not sure how to trim out your tile design? While bullnose and other trim detail are always an option, glazed edges offer a clean, streamlined edge without the bulk.

Colors may vary on machine pressed field compared to other handcrafted products. Please note shades of color are seen differently on computer monitors and in print. All that said, we always recommend ordering samples to make sure you like what you see!

FAQ + HELPFUL TILE INFO

Tell me about Variation & Handcrafted Characteristics!

While industrial tile-making stresses the reproduction of tiles with glazes so consistent that one tile is virtually indistinguishable from another, creating artisan tiles (while still striving for a certain amount of consistency) celebrates the natural properties and the unpredictable nature of the clay and the glaze. Shape, texture, color, and size variation are inherent characteristics of handcrafted tile. Once properly installed, the beauty of this handcrafted tile is enhanced by such variation.

Shade variation is inherent in all tile products, including man-made tiles such as porcelain, glass & ceramic. Shade and texture will vary significantly from piece to piece to within production runs. V1 shade variation has little or no change from piece to piece where a V4 will have a large variety of color and/or texture changes. Prior to any installation, a range of tiles should be approved by the customer. No claims for shade or texture variation will be honored after installation.

Please note shades of color are seen differently on computer monitors and in print, therefore we always highly recommend customers should order a sample before making a final selection or purchase.

How long is the lead time?

Red Rock offers a selection of convenient **Quick Ship** designs, available in a plethora of colors, that are shipped in two weeks. Our made-to-order tile lead times are subject to change, but usually ship from the tileworks within four to six weeks. Also, match and custom orders require longer lead times. Please note, cancellations are not allowed once orders have been glazed.

Need it faster? Give us a call and see what our current lead time is and we can walk you through the options.

Do you require an order minimum?

At this time, Red Rock does not require any tile order minimums. So, whether your project is large or small, we're ready to tackle it and get our hands dirty.

How much tile should I order?

Every project is different, so it's hard to say! However, we have a wide network of tile showroom partners that are eager to help you calculate and our team is only ever an email or call away. No matter the size of your project, **we always recommend ordering an average of 10%.**

What if I didn't order enough tile?

Fret not, we keep "pick ups" (variation samples from each order) on hand for up to three months. So, depending on your needs, we can pull from those samples.

What if I want a custom color or shape?

One of the benefits of handmade tile is we can accommodate custom orders with ease! We love collaborating with clients of all sizes to realize their perfect tile. Send us an email or give us a call - we can't wait to see what we can make together!

Crackle Glazes

Because crackle glazes are prone to absorbing stains, crackle glaze tile should not be used as kitchen counter surfaces. Any installation of crackle glaze tile should be sealed with a penetrating sealer prior to grouting. In areas that experience regular moisture, such as showers, resealing crackle glazes is a necessary maintenance procedure. This procedure does not affect the quality or appearance of the tile surface. Please note that unsealed crackle tile will stain.

Continued Care & Cleaning Recommendations

Ceramic tile is a relatively maintenance-free product that requires little continuing care beyond regular cleaning. Most cleaning can be done with a damp cloth and a gentle non-acidic soap. More resistant staining such as calcium spotting and soap scum can be handled using specially designed cleaning products such as Miracle Sealants Mira Clean I product. Other manufacturers such as Stone Tech also offer products specially formulated for ceramic tile care. Take care to avoid "over the counter" ceramic tile cleaners that contain phosphoric and glycolic acids that could etch some ceramic tile surfaces.
