CERAMIC AND PORCELAIN TILES. A SAFE CHOICE

TILE IS SAFE

Ceramic tile is a safe product that comes from materials of the Earth. It does not contain any plastic and it is completely recyclable. It does not release any VOCs or allergens and does not contain formaldehyde.

TILE IS CLEAN

Ceramic tile is one of the most hygienic materials. It is odorless and easy to clean with common household products. Unlike other flooring types, tile is completely inhospitable to bacteria. That means no mold or mildew, and a healthier home for you.

TILE IS VERSATILE

Ceramic tiles are available in an infinite variety of sizes and surface finishes, and are suitable for any environment, ideal for floors and walls, worktops and tables.

TILE IS DURABLE

Ceramic tile is a durable, UV-resistant material which can be easily cleaned, remaining new over time. Regardless of application, tile provides a low-maintenance solution providing superior performance and more peace of mind.

TILE IS SUSTAINABLE

Tile is the natural sustainable flooring choice. From unparalleled durability to zero-waste manufacturing, tile is one of the most eco-friendly flooring options available.

TILE IS FIRE-PROOF

Tile is non-flammable, meaning it does not produce smoke in a fire, does not contribute to flame spread, and does not burn and give off toxic fumes, which can occur with simple kitchen accidents.

TILE IS RESISTANT

Tile is strong, does not change shape, it is frost-proof, and it stands up to most common chemical detergents.

DESTINATION OF USE

The range of porcelain and ceramic tiles offered by Atlas Concorde USA are exceptional options for residential and commercial applications. Whatever the color, mood, or style to be achieved, our collection has the product you need.

SIZES

Rectified premium sizes and non-rectified popular sizes, offered for both floor and wall tiles. The reliability and technical performance of porcelain meet the advantages of white-body ceramic tiles: lightweight, easy to adjust and install, featuring brilliant glaze and decorative flexibility.

CUT-TO-ORDER

Atlas Concorde USA is happy to offer a service to our customers called CTO, short for Cut-To-Order. This service will allow our customers to request non-standard products within our ACUSA range. Do you need a non-rectified tile rectified? Not a problem. Do you need our Forge Brick Mosaic in a different product like Homeland? Not a problem. When you meet minimum quantities, we will make these items available for you through our CTO program.

Below we have listed the general information for you. For more details and pricing, please contact your sales representative.

The main non-standard product requests considered, refer to:

SIZE

A selection of the most requested sizes cut from our standard 12"x24" and 24"x48" field tiles

RECTIFY

Our 12"x24" field tiles, in Rectified version

MOSAIC

Request for the production of an existing mosaic pattern using a different field tile (different color, or collection) available in the Atlas Concorde USA catalogue

For any non-standard product requests not listed above, please contact your Sales Representative

TERMS AND CONDITIONS OF SALE

- Minimum order quantities must be respected;
- When the production is completed, customers must pick up the whole batch for each non-standard product ordered: shipment splitting is not accepted, and Atlas Concorde USA does not keep stock of any non-standard product in any quantity;
- If production volumes exceed quantities of the material ordered by up to 5%, customers have to pick up the total quantity;
- Refer to your Sales Representative and Customer Service to confirm the actual ETA;
- Atlas Concorde USA is not responsible for any availability delay concerning non-standard products;
- Atlas Concorde USA will not accept any non-standard product returns;
- For any other aspect, please refer to the Atlas Concorde USA General Terms and Conditions of Sale.

BIGGER IS FOR BIG ROOMS

truth

BIGGER MAKES IT LOOK BIGGER!

Our 24"x48" tiles are not just for big and wide rooms; in fact, they make any size room appear larger.

The unique look and function of the hexagon makes for a timeless shape in any room.

Break out of the usual four-sided look with an unexpected hexagon design. It's great for a focal point or an accent area.

Mix it up even more by using different colors for the tile and grout, or combine square and hexagon applications in the same space.

Don't let the atypical shape influence your installation planning. Hexagon tiles are easy to install despite their unique appearance.

MOOD

Match.Infinite.Decors.

MOOD IS FEELING. MOOD IS EMOTION. MOOD IS ENDLESS.

Atlas Concorde USA brings you thoughtfully curated mosaics and tiles from our various collections, assembled to capture trending styles and to help simplify your choices. These imaginative compilations capture the spirit of collaborative design and play with colors and shapes to create aesthetics tailored to individual style. Use them to craft awe-inspiring atmospheres or to ignite ideas that are uniquely you. Inspire your creativity by matching infinite decors to endless possibilities.

biophilic

Biophilic design represents the intersection of nature and the built environment. This sought-after trend brings the outside world indoors to create a sense of comfort, tranquility and place. Untouched stone, rustic wood and motifs of flora or fauna achieve a look of texture and energy within residential, hospitality or commercial settings.

modern farmhouse

What began as a look featuring an all-white color palette, shiplap walls, and vintage accessories has grown and matured into sophisticated spaces with cozy yet contemporary elements. We're talking about the Modern Farmhouse style. This style captures original Farmhouse aesthetics but adds modern touches. Think of something old with something new - like distressed, wooden beams above a galvanized steel dining table, or a vintage-style metal bed with a geometric rug below. Modern Farmhouse is all about character, so don't be afraid of mixing timeless pieces with trendy pieces.

When you think about Bohemian, words like "eclectic," "carefree" and "full of life" come to mind. The same goes for this interior design style. A home with a Bohemian vibe is full of color and culture. Items purchased from travelling all over the world are proudly on display. Jewel tones are treasured. There is an abundance of plush seating or comfy ottomans. And of course, mixing patterns is key. The Bohemian philosophy is "more is more," unlike other interior design styles. Wood, terracotta and concrete are all common surfaces in a Bohemian setting.

**contemporary**

While traditional is rooted in classic architectural elements like crown molding and symmetry relating to scale and proportion, Contemporary was the architectural style introduced in the 1970s that really deconstructed everything. In contemporary architecture, symmetry is no longer a player and the rooms themselves become like sculpture and the primary focus.

traditional

Still nodding to symmetry and beautiful details like crown molding, today's "new traditional" is focusing on bolder color and fresh takes on classic patterns in textiles, wallpapers and rugs. While it still incorporates a beautiful antique here and there, there are updated replicas in retail and plush upholstery to celebrate this foundational style to which other styles imitate.

**transitional**

Transitional style strives to mix traditional elements like antiques or upholstery with modern elements like abstract art and accessories. A home feels more curated in transitional style. Creating a transitional space allows you the freedom to integrate many different styles together while only having to pay attention to scale and proportion.

rustic

When it comes to creating a rustic interior whether it's a mountain home, a farmhouse, or a warehouse loft... It's about emphasizing the rough organic qualities. For instance, in a loft you may have exposed brick, where the mountain home may celebrate an overscale fireplace with indigenous stone and a farmhouse may have reclaimed wood walls or ceilings to create a style of simplicity.

MONUMENTAL

BEAUTY

Prized for its classic elegance, marble has graced the palaces of kings and queens for centuries. Eon captures this timeless beauty in a simpler, smarter ceramic. Achieve the fine look of marble, along with the enduring style and technology of Atlas Concorde USA. Inspired by the quarries of Italian Carrara, Greek Corinthian, and Eldorado, Eon delivers an exquisite combination of colors and veins that are the perfect complement to most styles.

ELEGANCE

AND MATERIAL STRENGTH

The Exist Collection recalls the historical and material prestige of the Bourgogne stone recovered from 16th century castles. This material mixes the look of aged cement with the look of a Provencal stone, timeworn with visible signs of craftsmanship. An overall look which conveys natural elements influenced by urban details. Exist is suitable for multiple interior design styles and applications.

INDUSTRIAL

STRENGTH STYLE

Atlas Concorde USA makes it easy to achieve an industrial aesthetic, coupled with the simple, durable benefits of ceramic. Forge delivers the worn and weathered artistry of metal recreated with a style that delivers a strong, urban personality.

This cutting-edge design fuses colors that suggest steel, iron, aluminum and tin along with patterns reminiscent of stains, scratches and oxidation. The tiles, mosaics and decors appear to be metal plates, bent and slightly hammered.

THE TILE

IN TEXTILE

The inspiration for this unique series is cut from the same cloth as natural linen fabrics applied to chalk panels for a timeworn, textural, concrete look.

Embrace the warmth and comfort of textile paired with the simple maintenance of ceramic. Newly enriched graphics weave in a metallic-glossy effect with more contrast and luminescence.

Fray now offers all the most sought-after sizes, as well as inspiring new decors with three fresh mosaic patterns.

The collection also now features an extended neutral tones range of color.

MEDITERRANEAN

UP-TO-DATE LOOK

The Impression Collection interprets the essence of precious marble quarried in the Mediterranean area, formed through a metamorphic process of sedimentary stones.

The sinuous graphics of the surface, its multiple colors, impressive shade variations and veining allow great versatility for many interior design styles. Impression is suitable for multiple applications from wall to floor.

NATURAL STYLE

SPRINGS FORTH

Inspired by vein-cut travertine, one of the most popular stones in architecture, Path adds warmth and naturalness to any space. The soft palette of colors and patterns are reminiscent of the natural artistry from underground springs and rivers that form this classic stone. The swirling, shifting surface effects draw attention to Path's reserved, subtle dignity – adding prestige without overwhelming the room.

EXPRESSIVENESS AND
BRIGHTNESS

TO CONTEMPORARY SPACES

The shimmering look of metal, with its infinite transformations of light and reflections, combined with the solid mood of concrete, add a urban feeling and a modern taste to every environment. Characterized by an extreme brightness, the Reflex Collection plays on perspectives to add expressiveness and vibrancy to contemporary spaces. Available in four colors inspired by the luminescence of metal, the collection is enriched by decorative mosaics which allow to customize any type of venue.

RUSTIC

*Traditional at first glance, Ridge is the peak of genuine personality.
A detailed study of stone yielded this rustic translation with inserts of character.
The raw, natural look is the cornerstone of simplicity, comfort, and rock-solid beauty.
The veins and signs of Ridge are enhanced by the Row Mosaic,
which combines different size tiles for a dynamic display.*

- A BLEND OF STONE AND MARBLE LOOK
- AGED, SCRATCHED AND CONSUMED
- UNIQUE STYLE GIVES EVERY VENUE A MODERN YET URBAN TOUCH
- WIDE COLOR PALETTE AND SHADE VARIATIONS
- RICH IN DETAILS AND SUITABLE FOR DIFFERENT SPACES

THE ELEGANCE

OF MARBLE, THE BOLDNESS OF STONE

The Rooted Collection mixes the two most decorative and rich in graphic materials for interior design.

The marked veins of marbles are combined with the bold appearance of soapstone, creating a unique look which gives every venue a modern yet urban touch.

The overall aspect is timeworn and scratched, with a wide color palette which includes dramatic modern shades like white and dark gray and more traditional ones like ivory and medium gray.

The result is a product rich in details that is suitable for different spaces, from industrial residential to rustic commercial.

REFINEMENT

AND AUTHENTICITY

The Trilogy collection mixes a refined selection of the most sought-after white marbles quarried from the most renowned sites in the world: Italy and Greece. Shades represent the common theme between these precious stones which have been carefully selected for their bright white color and gray veins that vary depending on the original material, giving each a unique appeal and enhancing its own identity. Thanks to the reputation and the look of the natural stone, marble-look surfaces can be matched with different types of interior styles, from the most classic and elegant to the modern ones.

V-SHADE, SHADE VARIATION

The V-Shade classification indicates the color shading level of a product, that is to say the chromatic and/or surface variation among tile of the same collection. A strong color shading is typical of ceramic collections that reproduce natural stones and marble. A moderate color shading is typical of ceramic collections for which a homogeneous chromatic surface is an aesthetic feature of contemporary design.

	V1 UNIFORM APPEARANCE	Differences among pieces from the same production run are minimal.
	V2 SLIGHT VARIATION	Clearly distinguishable differences in texture and/or pattern within similar colors.
	V3 MODERATE VARIATION	While the colors and/or texture present on a single piece of tile will be indicative of the colors and/or texture to be expected on the other tile, the amount of colors and/or texture on each piece may vary significantly. It is recommended that the range be viewed before selection.
	V4 SUBSTANTIAL VARIATION	Random color and/or texture differences from tile to tile, so that one tile may have totally different colors and/or texture from that on other tile. Thus, the final installation will be unique. It is recommended that the range be viewed before selection.

NOTES
 For aesthetic Classes V1 and V2 there should be minimal visible box-to-box variation present between boxes labeled with identical shade values. Tile with a V3 or V4 aesthetic class may exhibit box-to-box variations. However, these products shall have a continuous natural blend.
